Séché Group

A world of solutions

A global offer for the medical waste management

Séché Group is a single point contact for medical waste producers
(hospitals, clinics, laboratories, industries, collectors)

A Global offer

- Audit of existing practices
- Elaboration of the best solution from collection to disposal
- Implementation of technologies
- Operation and maintenance

Experience

Leading player in France and international expansion (Peru...)

Strengths

- Specialist for hazardous waste and medical waste management
- Optimized costs and a reduced environmental footprint
- Traceability
- Development and implementation of tailor-made solutions.

Employee training: a performance and safety guarantee

- Training programs and customized sorting guides including regulations, hygiene and safety fundamentals
- Training provided by medical waste management experts

Waste collection in complete safety

- Collection operations planning in compliance with existing regulations
- A fleet of ADR approved vehicles dedicated to medical waste
- An ADR certified team of specialists in infectious risk management
- Collections eco-optimized management, using a "Transport management system"
- Eco-responsibility and traceability are our priorities

Package your waste in suitable containers: regulatory compliance guarantee

- Adapted packaging for each type of waste
- ADR certified packaging
- Containers identified and labelled: guaranteed traceability

Extra protection for double risk liquid waste: enhanced security, easier collection, controlled elimination

- Providing a gel powder for liquid double risk waste
- Gelled waste, collection, transport and treatment
- Secure storage and collection
- Medical waste treatment system with complete destruction of pathogens

Treatment and recovery medical waste in dedicated facilities

Séché Group offers tailored and specific treatment solutions.

- Autoclave or microwave disinfection systems. The neutralized waste is then disposed by high-temperature treatment or storage
- High-temperature thermal treatment with or without energy recovery
