

# A global player for environmental management

- Offices / treatment sites
- ▲ Ongoing or completed contracts

# Séché Group

## A world of solutions

# Polluted sites and soils rehabilitation

## Solutions to manage all types of pollution

Séché Group offer tailored solutions with added value services.

### Séché's expertise

- Complete project management
- Recognized experience
- Complex pollution issues management
- Traceability
- Risk management
- Co-activity management

Our teams are at your service

# On-site and in-situ polluted soils management

- Organic pollution treatment
  - Biological organisms
  - Venting
  - Bio-chemical methods
  - Thermal desorption
- Metal pollution treatment
  - Physical-chemical treatment
  - Stabilization
- Groundwater remediation

# Polluted sites and soils rehabilitation

- Site audit
- Identification of the best treatment solutions
- Site securing
- Technical dismantling and demolition
- Asbestos management
- Polluted soils earthworks and sorting
- In-situ and/or ex-situ treatment of polluted soils
- Landscaping and revegetation

# Off-site polluted soils management

- Selecting the appropriate treatment option (biocenter, storage, stabilization, thermal treatment...)
- Logistic management
  - Packaging
  - Multimodal transport (road, sea, river, rail)

# Radioactive waste management

- Radio-activity measurement systems
- Radiation protection
- Design and supply of liquid and solid waste treatment processes (very low, low and intermediate level)
- Design and management of facilities dedicated to retrieval, conditioning and waste treatment
- Cleanup, decontamination and dismantling
- Final radioactive waste disposal
- Supply of certified containers for radioactive materials shipment
